ACTUAL POSITIONINF AND OBJECTIVES

- **Today :**
  - The 20L Saturne planetery only represents 2% of the planetary sales

- **Objectives** :
  - To offer 20l planetary for **narrow bakehouses with strong layout constraints**

  - To propose a range in addition to “Saturne”

Robust
Plug & play

PRODUCT DEFINITION

- 20L bowl volume: adapted to **small quantities** and product which requires a **high level precision**

- Stainless steel bowl and tools as standard:
  - Whip
  - Flat beater
  - Spiral

- Accessories:
  - 12l reduction bowl with 3 tools
  - Stand equipped with a storage space for one bowl and the tools

Robust
Plug & play

RECOMMENDATIONS

- This equipment is suitable for:
  - Pastries
  - Bakeries

- THE smart solution for **tight spaced bakeries** :
  - Compact equipment
  - Optimization of the layout thanks to a stand equipped with a storage space for tools and an additional bowl

- Warning : If the planetary is ordered without its stand, it has to be installed on a fixed structure, without wheels

EASY TO USE

ELECTRONIC CONTROLS WITH VARIABLE SPEED

1. START : to start the cycle
2. Higher (+) / lower (-) speed
3. Selecting manual or automatic mode
4. Emergency stop button
5. Power on indicator light
6. More (+) / less (-) mixing time
7. STOP : to stop the cycle
8. Signalling LED: automatic operation mode
9. Signalling LED: manual operation mode
10. Time / speed display
11. Bowl, bowl protection and tool rotation alarm signalling LED

BENCHMARK : ENDURANCE

- Endurance test on a croissant dough hydrated at 50%

Stellar - BONGARD

5 minutes on 1st speed (equivalent to a mixer speed)
5 minutes on 2nd speed (equivalent to a mixer speed)

Conclusion : The dough is well mixed and the motor (1000W) did not show any weakness

BV 22 - VMI

5 minutes on 1st speed (equivalent to a mixer speed)
2 minutes on 2nd speed (equivalent to a mixer speed)

Conclusion : After 2 minutes mixing, the motor (750W) overheated, fell down and shot down

A STURDY AND ERGONOMIC PROTECTION LID

- **Equipped with locking system** to retain the cover :
  - **Limits schocks** when the lid is closed
  - **Contributes to the safety** of the baker

- Anti splashes lid :
  - Reduces significantly flour emission
  - Specially design to prevent condensation and drying choux pastry dough

- **Thermoformed transparent PMMA cover scratch resistant**

EQUIPEMENT PLUG & PLAY

- **Single phase connection**: 230/1/50Hz
- **Installation plug & play :** fast and easy to install
- **Equipped with wheels** when Stellar is on stand, this planetary can be **moved and plugged wherever you need**
